

NON-INSTRUCTIONAL OPERATIONS

Procedure to Be Followed When Weather and Road Conditions Make Bus Travel Hazardous

1. Pasco and Richland schools will be contacted regarding Kennewick's school delay and closure plans.
2. School opening will be delayed two hours or closed for the day. The decision will be made jointly by the transportation supervisor and the superintendent.
3. Radio stations will be notified of all changes in bus operations and school starting time. Notification will be made by the superintendent or transportation supervisor at approximately 6:00 a.m. The final decision (regarding closure after a delayed opening) will be made and notification given by 8:30 a.m.
4. Generally speaking, school will remain in session throughout the entire day even though inclement weather may necessitate early release of buses traveling to the Horse Heaven Hills and Plymouth areas.
