

COMMUNITY RELATIONS

Public Information Program

The district shall strive to maintain effective two-way communication channels with the public. Such channels shall enable the board and staff to interpret the schools' needs to the community and shall provide a means for citizens to express their needs and expectations to the board and staff.

The superintendent shall establish and maintain a communication process within the school system and between it and the community. Such a public information program shall provide for news releases at appropriate times, arrange for news media coverage of district programs and events, provide for regular direct communication between individual schools and the patrons they serve and assist school personnel in improving their skill and understanding in communicating with the public.

Community opinion may be solicited through parent organizations, parent-teacher conferences, open houses and other such events or activities which may bring staff and citizens together. Survey instruments and/or questionnaires may be developed in order to gain a broad perspective of community opinion.

The board is a nonpartisan public body and as such will not endorse political candidates. Neither employees nor students shall be asked to disseminate candidate's campaign materials from the schools nor shall any of the district's facilities or communications services be used to disseminate such material.

The superintendent shall identify personnel who have significant public information responsibilities and establish guidelines for their work. The guidelines shall address such matters as authority for making releases and the nature and content of bulletins to parents.

Adopted: June 10, 1992
