

NON-INSTRUCTIONAL OPERATIONS

Food Services

The district supports the philosophy of the National School Lunch Program and will provide wholesome and nutritious lunches for children in the district's schools. The board authorizes the superintendent or designee to administer the food services program provided that any decision to enter into a contract with a private food service agency shall require the approval of the board. Expenditures for food supplies shall not exceed the estimated revenues.

Because of the potential liability of the district, the food services program will not accept donations of food other than as provided in Policy No. 8210 without the express approval of the board. Should the board approve a food donation, the superintendent shall establish inspection and handling procedures for the food and determine that the provisions of all state and local laws have been met before selling the food as part of the school lunch menu.

The district will comply with rules and regulations regarding the development and implementation of a plan for a school breakfast program in severe-need schools according to RCW 28A.235 Food Services.
