

## **NON-INSTRUCTIONAL OPERATIONS**

### Hazardous Materials

It shall be the policy of the Kennewick School District to restrict the use of recognized hazardous materials and enforce safe practices in their use.

During construction the use of asbestos in insulation and acoustic coatings shall be prohibited. Existing applications shall be identified and the hazardous contents marked. Procedures shall be written clearly to define measures to be taken when working with these materials to protect the personnel and prevent contamination of the environs.

Similar precautions and instruction shall extend to other materials such as lead, mercury, cadmium and zinc found in paints, tools and containers. Chemicals and solvents shall be similarly identified and their use controlled.

Adopted: September 9, 1992
