STUDENTS

Student Fees, Fines, Charges

There shall be no fees assessed for materials required to meet basic education course requirements. Should a student choose to complete a project or work beyond course requirements, fees will be assessed not to exceed the cost of materials. A proper accounting shall be made of all monies received by district personnel for materials.

The board of directors shall establish a fee for Traffic Safety Education. The board delegates authority to the superintendent to establish other appropriate fees and procedures governing their collection. At its discretion, the board may set an amount for a users fee for co-curricular activities.

Students shall be responsible for the cost of replacing materials or property lost or damaged due to negligence. The district may withhold the grade report, transcript, or diploma until a student has paid any fines or made restitution for any damages or loss of school materials or equipment for which he or she is responsible. When the student and parent or guardian are unable to pay for the damages, the student shall arrange with the principal to do voluntary work in lieu of payment of monetary damages.

Before any penalties are assessed under this policy, the school shall notify the student and parent or guardian of the due process procedures.
